Reclaim your property!!! Avoid neighbors complaining or getting a violation from the county or HOA. Why break your back and destroy your push mower trying to mow down a jungle. Our brush mowers (cutters) are a beast compared to a typical residential lawn mower. We have the equipment to tackle some of the most rugged terrain along roadsides, pathways, ditches and hills with mowers designed to mow down grass as high as 6 feet tall, cut down weeds as high as 8 feet and saplings as thick as 3 inches in diameter, even bamboo. Our mowers are small enough to fit through small gates and narrow passages to access backyards and other hard to reach areas. Being compact in size, our mowers are light weight to help minimize tearing up the ground or putting ruts in your yard like larger brush hogs or heavy land clearing equipment. Our work quality will meet or exceed your expectations. We work very efficient and we feel confident you will be quite pleased with how thorough our service is.
